

## **Help Us Help Them**

Iron Swords - The war began suddenly, and " we are not ready"

There's no place to evacuate citizens, No food for the thousands of survivors, and even worse, not enough basic equipment for our heroic soldiers.

Elani Chesed works day and night to provide food, drink, and everything needed for our soldiers. We are also taking part in the effort to provide for the basic needs of 120,000 families who were evacuated on September 7 from their homes, many of whom have nowhere to return to. Entire families have been split up, with 1400 people murdered in cold blood.

"B'H, with the help of partners and many good citizens, we have purchased and sent products worth NIS 5 million, including bulletproof vests, flashlights, tzitzits, tank tops, and numerous trucks of food to dozens of tent camps for civilians evacuated from the fire. It's great, but we need much more to win this battle."

### **5.000.000 NIS**

### **It's not enough** YOUR
